

**MIDAS # 3278**  
**C POND**

C SURPLUS TWP, OXFORD CO., MAINE

AREA 173 ACRES

# C POND

C Surplus, Oxford County  
U.S.G.S. B Pond and Andover, Maine (7½')

## Fishes

Brook trout  
Rainbow smelt  
Minnows  
Lake chub  
Common shiner

Creek chub  
Fallfish (chub)  
Hornpout (bullhead)  
Slimy sculpin  
American eel

## Physical Characteristics

Area - 173 acres

Temperatures:

Maximum depth - 36 feet

Surface - 70°F  
33 feet - 55°F

Principal fisheries: Brook trout

C Pond is located south of C Bluff Mountain. A small inlet enters the east side of the pond and its outlet, the Dead Cambridge River, flows west into Umbagog Lake. The pond's shoreline is mostly undeveloped.

Water quality in C Pond is marginal for coldwater gamefish. Nonetheless, there is a population of native brook trout present. Good spawning and nursery habitat in the inlet and outlet allows the trout to maintain sufficient numbers for a fishery. Growth is good despite competition from other fish species. The pond is not stocked.

C Pond is accessible via gated logging roads off Route 16. The pond is open to fishing with artificial lures only in the summer and closed to fishing in the winter months.

Surveyed - July, 1954
